

Helping **VCs** optimize their time and focus on the deals that **matter**.

Ventro

PROBLEM

VCs spend countless hours on initial screening (inbound).

Leading to less time for high-potential founders and deals.

**What if you could automate
initial interactions while
maintaining your personal
touch and investment thesis?**

Digital clones of your partners

- Automated 24/7 screening
- Multilingual capabilities
- Consistent evaluation based on your set criteria

DEMO

Founder flow

**Partners review only
qualified opportunities, with
AI-generated notes and
insights aligned with your
investment criteria.**

DEMO

VC dashboard

"Seamless integration with your **CRM**
means less time on **admin**
more time on **deals.**"

How does this all work?

We need to confirm some details

Feedback

Avoid noisy environments

Background sounds interfere with recording quality results.

Check microphone quality

Try external units or headphone mics for better audio capture.

Use consistent equipment

Don't change recording equipment between samples.
